-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on IDS filed August 10, 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following patentably distinct species is required under 35 U.S.C. 121:

- I. Claims 1-5 and 12-14, drawn to an optical transmission line having, respectively, fibers spliced with negative, positive, then negative dispersion, classified in class 385, subclass 123.
- II. Claims 6-8 and 12-14, drawn to an optical transmission line having, respectively, fibers spliced with negative, intermediate (undetermined), then positive dispersion, classified in class 385, subclass 123.
- III. Claims 9-14, drawn to an optical transmission line having a negative dispersion fiber spliced to a positive dispersion fiber, with specific sum L (length) properties, classified in class 385, subclass 123.
- IV. Claims 15-18, drawn to a transmission system with upstream component(s), classified in class 398, subclass 201.

2. This application contains claims directed to the following patentably distinct species of the claimed invention: Species I (Claims 1-5, and 12-14), Species II (Claims 6-8, and 12-14), Species III (Claims 9-14), and Species IV (Claims 15-18). The distinct species listed herein are patentably distinct for the reasons given in the text above, in regard to particular limitations found in each group. It is noted that claims 12-14 are dependent upon distinct species with

Art Unit: 2874

independent claims 1, 6, and 9. **Claims 12-14 must be amended** to depend *only* on the particularly elected species.

Applicant is *required* under 35 U.S.C. 121 to elect a **single** disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 2874

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Petkovsek whose telephone number is (571) 272-2355. The examiner can normally be reached on M-F 8:30-5:00.
